

GAJESKE, INC.

POLYETHYLENE SPECIALISTS

*Leak Free
Piping Solutions*

Gajeske, Inc. is master distributor of HDPE pipe, valves, fittings, fabrications, and McElroy fusion equipment for Municipal Water & Wastewater applications. HDPE can also be easily coupled to your existing PVC, ductile iron, or cast iron waterline.

Please give us a call Today for more information about how HDPE can reduce costs and eliminate potable water loss.

Gajeske@Gajeske.com

Since the 1960's, polyethylene pipe has been used for municipal water applications.

HDPE is durable and can bend to a radius of 25 times its diameter, meaning fewer 90° bends overall, reducing water hammer, and eliminating potable water loss.

PRODUCTS

- HDPE Pipe
- Corrugated Pipe
- Water Service Tubing
- Fittings & Valves
- McElroy Fusion
- Custom Fabrication
- Safety / OQ Training
- Fusion Training
- Equipment Repair

BENEFITS

- Cost Effective
- Lightweight
- Flexible
- Durable
- Joint-Free
- Self Restrained
- 100% Leak Free
